Guarantee**
Built & installed to last in
testing Australian conditions.

COMPLIANCE

Independent NATA accredited testing to provide assurance that windows and doors can exceed all structural, water and debris impact performance requirements for cyclonic and non cyclonic zones.

Superior functionality and style, along with performance demanded by extreme weather conditions.

Successful testing compliant to Industry Australian Standards.

STRENGTH

Tough product.

Modern sills prevent leakage.

Thicker glass standard throughout.

Streamlined standard 92mm or 50mm framing means easy configuration.

New system designed and created in 2014 around modern Australian Standards.

Strong flywire doors with rollers on bottom for smooth performance, with easy upgrade to stronger flywire if desired.

CHOICE

Larger size range available across all configurations.

Extensive range of standard configurations and colours.

Low maintenance non-corrosive rollers and hardware.

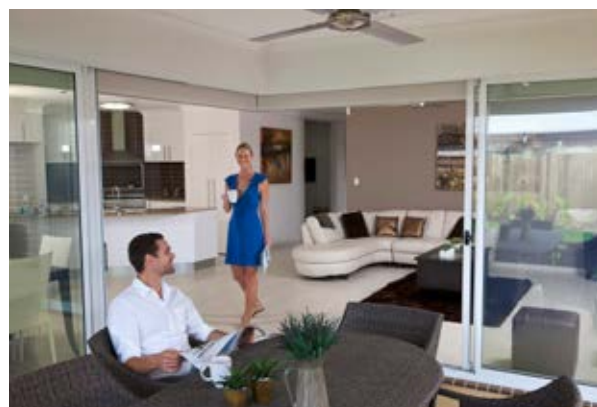

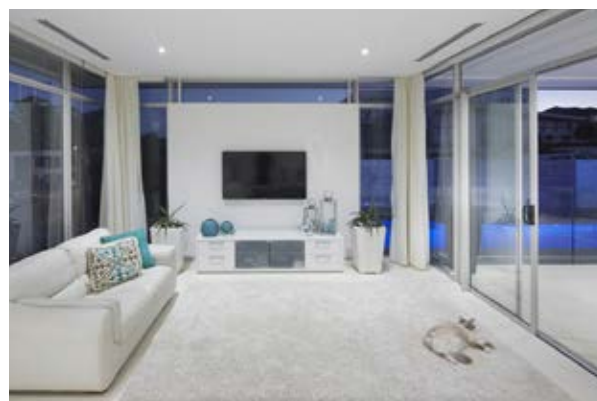

Quality Manufactured to the highest quality standard.

Sliding Doors

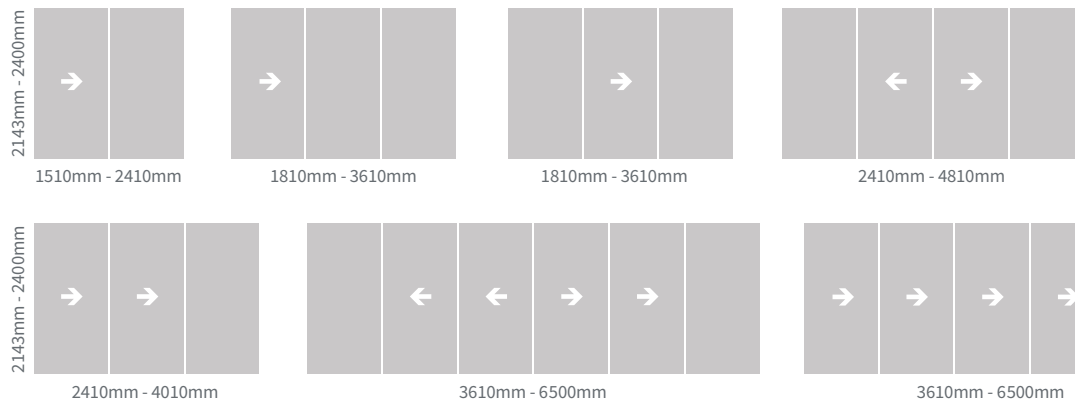

With a wide range of configurations available, Glass Co WA is sure to have a sliding door to match your layout and lifestyle. Smooth sliding, secure, weatherproof and energy efficient, our sliding doors make it easy to open up and let the fresh air in or lock up and keep everything out. Style, performance, security and value, all backed by Glass Co WA's workmanship installation guarantee.

Size Options

For further sizing information, see the Brick Course Guide on page 12.
All sizing information is dependant on AS2047 area ratings.

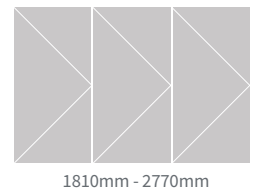

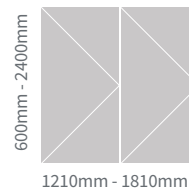

Bi-fold & Hinged Doors

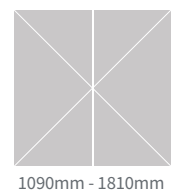

Be it a classic hinged, grand double or a functional bi-fold, Glass Co WA will custom design your doors to provide truly individual style. While hinged doors offer timeless elegance, bi-folds add a new level of versatility. Glass Co WA bi-folds provide a stylish connection between the outdoors and the inside. Open up to a nice breeze or create more space to entertain guests. The choice is yours.

Screening Options

Like all Glass Co WA products, our flyscreens and security screens are custom designed to fit your home. Be it for a traditional hinged front door or a wide opening sliding door, we're able to create flyscreens or security screens to work with any of our products. Made locally with quality components, the screens are built to perform, and made to last in testing Australian conditions. All installations come with Glass Co WA's workmanship installation guarantee.

Screening Options

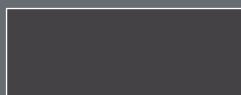

- Insect Screens
- AluGuard Security
- InvisiGuard Security
- Retractable Screens

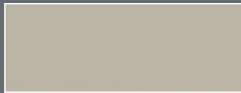

Colour Options

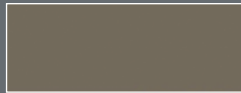

Magnolia

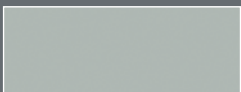

Charcoal Lustre

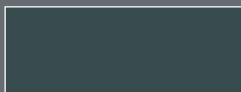

Dune

Jasper

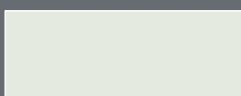

Anodic Natural Matt

Anotec Dark Grey

Pearl White

Surfmist Matt

From modern stainless steel to more traditional tones, Glass Co WA products are available in a range of colours to match your home's style. Above is a selection of our most popular colours. If you have a specific colour in mind, just ask one of our sales team. We'll do everything we can to give you the doors and windows that match your lifestyle and fall within your budget.
